## Product Features and Benefits

<b>Radiant/Convection Heating</b>	The radiant panel heats objects in the room, including people, and the convection fan blows warm air to every corner of the room.
<b>Powerful Heating</b>	With 25MJ of power the Brigadier can heat up to 90m2, suitable for large open plan areas.
<b>Safety Tip Over Switch</b>	The heater will automatically shut off if it tips over for any reason, giving you peace of mind.
<b>Oxygen Depletion Sensor</b>	The heater monitors the level of oxygen in the room and if the level becomes low, the heater will automatically shut off so the oxygen level can restore itself.
<b>Flame Failure Shut Off</b>	If the flame goes out, the gas will shut itself off, so there are no dangerous gas leaks
<b>Operation In A Black Out</b>	The radiant panels can be manually lit, so during a blackout you are still able to use the heater.
<b>Easy Cleaning</b>	The front grill is removable, so you are easily able to open the heater and wipe or vacuum dust that accumulates inside.
<b>Push Button Control</b>	Push buttons on the top of the heater are easily accessible and make controlling the heater a breeze.
<b>Warranty</b>	3 year warranty for peace of mind.
<b>Australian Made</b>	Made using high quality Australian standards whilst keeping jobs in Australia.
