

# Happy New Year

Adelaide Hills Gas Annual Newsletter

JAN

25

To all of our loyal clients,

The team at Adelaide Hills Gas want to extend our thanks for trusting us with your LP Gas needs again this year. We hope your festive season has been relaxing and enjoyable and you're heading into 2025 with energy and great ambitions. Amongst the celebrations it's easy to forget the essentials, so take a moment to go and check your bottles today to avoid a cold shower this holiday period!

Leigh and Bec have now owned Adelaide Hills Gas for five years. 'Since taking over the business in January 2020 we have learnt a lot and take great pride in serving the local community. Seeing so many wonderful clients supporting the company decades on is a true reward for why we do what we do. With our staff and long term customers it feels like one big family' says Bec.

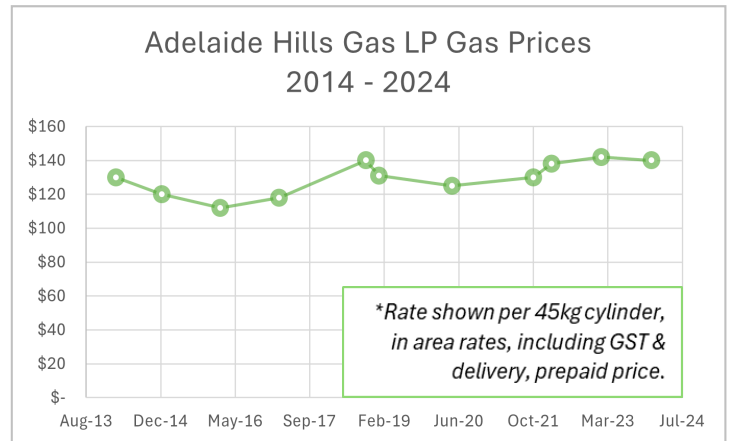

Attached you will find the annual service charge on the gas cylinders held on site. If your details need updating please reach out at your earliest convenience. **Invoices due on 31.1.25 PAY YOUR INVOICE BEFORE THE DUE DATE FOR YOUR CHANCE TO WIN FREE RENTAL FOR A YEAR!** Two winners will be drawn at random and announced on 10th February 2025.

Graph pictured to the right showing LP Gas pricing over the last ten years. Quite amazing with all of the inflation, our LPG rates have come out with an increase of only 9.4% over 10 years!

### What's new?!

\* We are currently working on an app to make online ordering even easier for you in the future. It will eventually have inbuilt recognition of past orders enabling prompts to check your gas cylinders or add it to your calendar! Watch this space, we are hopeful to have something released this time next year.

\* Our new WITT pizza oven range (below) has been very successful. A perfect addition for the entertainer at home! Come and check them out in store next time you're in.

From everyone at AHG, we appreciate your loyalty and look forward to seeing you in the New Year.

## New product alert!

# BUSHFIRE LPG Safety Tips

Predictions are we're in for a warm Summer so we thought we'd share some information about LPG. It is a flammable, liquified gas that is stored under pressure. In it's natural state, it is colourless and odorless, but an odorant is added to help detect leaks. If a fire approaches follow these simple steps:

### Follow Directions

Follow the directions of the fire authorities

### Turn Off

Turn off all gas appliances and gas cylinder valves (clockwise)

### Prepare

Ensure gas cylinders are upright on a stable base, and that the area around them is free of flammable materials. Keep cylinders at least 1.5 metres away from combustible materials.

### Leave

Leave gas cylinders where they are, in an upright position and do not move them indoors. The safety release valve is designed to protect the cylinder when exposed to high temperature.

### Check

After the threat of a bushfire has passed, have your gas supplier check the cylinders and equipment for heat damage.

**Other Tips:** Clear vegetation and rubbish away from your home, keep gutters clean and free from debris.

Have you visited our showroom lately?

Did you know we sell the following;

- LP Gas equipment– Regulators, BBQ hoses, Bayonet hoses, Pigtail connections (from the cylinders to the regulator) & more
- Welding machines and consumables

- Gas operated Weed Burners & Bird Scarers
